

I am concerned about the possible loss of the K-LOVE FM radio signal in my community. Their broadcast offers an encouraging and informative Christian perspective which I and my family appreciate and listen to daily. I believe their broadcast has the same effect throughout central Texas, and is the preferred "station" of many of my friends. Because I am the parent of two teenagers, I am very concerned about the music they and their friends are exposed to every day. I have no reservations or reason to worry about the music and information broadcast by K-LOVE and that my children hear. I wish more radio stations had the integrity and genuine concern for their audiences as does K-LOVE. Our town has been blessed by K-LOVE and I support them in their efforts to send a message of hope and restoration to people who are in need of that. My hope is that K-LOVE's signal remain strong, loud, and clear.
